Marriage of a Youthful Couple.

A young Mr. Moore, about seventeen years of age, a nephew of Rev. L. W. Moore, of this city, and Miss Howard, aged about fourteen years, both of Island Grove, were married at Hawthorne Monday, and came to Ocala on the afternoon train the same day. Of course there were parental objections to the marriage, and the young people, fearing pursuit, bought tickets to Anthony, but came on to Ocala. The father of the young lady, suspecting as much, with a party of friends, came to Ocala for the purpose of intercepting them, and if possible to take his daughter back with him.

The parents of the young man, hearing of the plans of the young lady's father, also boarded the train and came to Ocala to protect their son if it were necessary. All of the parties stopped at the Florida House. The police were immediately notified and were on hand to see that no violence was done.

Young Mrs. Moore refuses to leave her husband, and Tuesday Mr. Howard consulted attorneys and will try to have the marriage annulled.

That our high tariff prevents trade between the United States and the republics of America south of the Caribbean sea, is shown by the government report that but 12 per cent of their imports comes from the United States. NEW YORK FASHIONS.

Graduating Dresses; Materials; Black and White Combinations; Black Silks; Lingerie Hats; Leg horn Flats.

Correct taste indicates a simple dress for the graduate, but unhappily the present vitiated taste leads to such extreme ornamentation, that the custom is often entirely unsuitable to the occasion. Nothing is sweeter or prettier than dotted Swiss, plainly made, two or three tucks in the skirt, a full baby waist and tucked yoke of sheer lawn or muslin. Mull is another appropriate material, but with lace insertion in points, squares or ruffles, and massed on yoke and sleeves, simplicity is at an end.

Net Organdy.

or English embroidery, are in great favor, the latter however, is a conspicuous material, especially when a skirt is of three wide, open-work ruffles, with waist, full bertha and elbow sleeves also of embroidery. Sashes have given place to white belt with

never more beautiful. However the former opinion is somewhat justified by the remarkable demand for the bonnet black silks controlled exclusively by Lord & Taylor in all their varied textures, whether taffeta, surah, chiffon taffeta or the heavier grade, such as our grandmothers used to wear—rich and lustrous. A new and pretty mixture of black and white, is white silk stitching on open mesh black silk gloves. In millinery, the dotted ribbons threaten to overthrow the striped which has become very common.

Illustration.

Thanks are due the McCall Co., makers and designers of fashion for handsome illustration accompanying this article.

Lingerie Hats and Leghorns.

Lingerie hats and Leghorns trimmed with flowers, are contending for supremacy, each charming in its own peculiar style. In the former, the inside brim is of shirred chiffon, and together with two or three lace edged chiffon ruffles form a foundation over which is laid a frill of English embroidery, with cap crown to match.

loops or knots at each side of the front and at the back, and white silk hosiery, low shoes and long white silk gloves are a matter of course.

The Prevalence

of black and white is on the increase and its newest illustration is in dotted foulards—black dots on white, and white on black. This design is also popular in blue silks, and charming costumes of both are display in the shop windows, the accordion-plaited "sunburst" skirt, full round waist with white lace yoke, and of course frilled elbow sleeves. These are attractive to look upon, but a few damp days, a little wear, and what a change takes place. The Princess outline is attempted by three or four rows of fancy white silk braid run around just below and at the waist.

Some of the Initiated.

predict a wave of black in the fall, the advance guard of which is the cordial reception of black and white mixtures. This would be a matter of regret as colors and combinations were

Robbon is draped around the crown, with a bow placed anywhere that may be found most becoming to the wearer. Plain satin ribbon is generally the choice, but a large bow or pompadour ribbon at the front, gives an air of distinction.

A Shirred

Bowl crown is a novelty, and also the poke shape, one of which appears in broad striped mull, one stripe of Dresden buds in blue, the other in open embroidery, the front composed of lace edged ruffles. Large roses or small flowers are almost universal on lingerie hats and this season, a small cluster of flowers or a ribbon bow nestles under the brim, which is quite an innovation. For leghorns, any and all flowers are employed, preferably large roses combined with foliage and ferns. Wreaths of white lilies, dotted with rosebuds are a stylish garniture and in all these beautiful fancies, one is free from the wing and aggressive quill.

Miss Janet Weathers' Dancing Party.

Miss Janet Weathers' dancing party Tuesday night was a very happy affair. It was given especially by Miss Weathers in compliment to her friends, Miss Alice Bullock and Miss Louise Scott, who have just recently returned from college, and for Miss Scott's guest, Miss Hatchett.

The young hostess and the guests of honor wore pretty dancing frocks and assisting them in receiving and entertaining the guests were Mrs. Weathers, Miss Esther Weathers and Miss Hattie Dye.

Mr. W. S. Pike played most excellent dance music and the young people all joined with a spirit of good cheer and merriment in the dancing and other pleasures of the evening, and all thoroughly enjoyed Miss Weathers' party, which was one of the most pleasant ones that has been given by the younger society set.

Dring the evening fruit punch, ices and cake were passed to the guests.

Those who were Miss Weathers' guests Tuesday night were the following: Misses Alice Bullock, Louise Scott, Mary Lou Hatchett, Sallie Camp, Sue Anderson, Annie Mathews, Annie Atkinson, Louise Harris, Anna Mixson, Caro Liddon, Emma Nelson, Alice Richardson, Eugenia Fuller; Messrs. Robert Mathews, Osco and Guy Zewadski, Harry Palmer, Frank Harris, Jr., James Taylor, Alfred Beck, Ralph Robinson, Bruce Meffert, Heron Todd, B. S. Weathers and Brantley Weathers and several of the older set.

Mr. Emmett Davidson, now of Atlanta, arrived in Ocala Tuesday afternoon, and is the guest of his sister, Mrs. Mattie D. Juhan, having come to be present at the wedding of his niece, Miss Allie Van Juhan and Mr. Albert Davis Thursday morning. This is Mr. Davidson's first visit to Ocala since he left here eight years ago for Charlotte, N. C., where he has made his home until very recently. Mr. Davidson was at one time Captain of the Ocala Rifles, and during the Spanish-American war he was a major in the volunteer army, and was one of this city's most prominent and popular young men, both in business and social circles. He is receiving a very cordial welcome to his old home by his host of very warm friends.

Friday morning on the Sharpe's Ferry road, about three miles from this city, the home of Mr. Wrazier Clayton was burned to the ground and all of his household possessions were destroyed. Mr. Clayton works for Messrs. McElver & MacKay in this city. Any contributions in the way of household necessities that can be given him will be gladly received.

Mr. A. A. Olin, of the firm of Nix & Olin, Grahamville, was in the city Saturday on business. He reports the lumber business in a flourishing condition, and says they have orders booked for months ahead. These young men are constantly adding to their equipment, and are sawing all kinds of building lumber, from rough to inside finishings.

Miss Sara Harris, Mrs. W. H. Powers and Miss Louise Harris returned home Saturday afternoon from a ten days' visit to Lake Toxaway, Asheville and Hendersonville, N. C., in the Blue Ridge mountains, having gone with the members of the editorial association. They had a very delightful trip and are very much charmed with that section of the country.

Dr. Lawrence Scott was graduated from the University of Maryland at Baltimore last week, and is at home to spend a few weeks with his parents, Mr. and Mrs. G. S. Scott. Later he will return to Baltimore for a year's practice in one of the large hospitals in that city.

It is said that a sponge, saturated with strong spirits of camphor suspended near the bed will keep away mosquitoes. Oil of pennyroyal will do the same.—Now tell us what will keep away the flies in the day time.

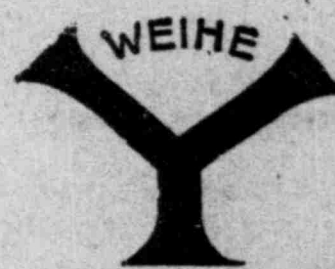

Claude L'Engle's Sun we hope will fructify things about the state capital. Tallahassee ought to be one of the greatest cities of Florida. Its hills, its soil, its history, all conspire to make it a city to be sought.

As soon as Messrs. Rheinauer & Co. signed a year's contract with the Ocala Banner and began a vigorous and systematic system of advertising, the very next thing they did was to lease two additional store rooms. Does advertising pay? Well, we should say that it does.
